

## GRADUATE SPECIALIZATION IN ANTHROPOGENY

CARTA supports a unique anthropogeny graduate specialization available to PhD students in participating programs at UC San Diego. The program's curriculum trains a new generation of transdisciplinary thinkers who can advance the study of anthropogeny while gaining valuable training in mediating between multiple knowledge bases.

## CURRENT AND PAST SPECIALIZATION STUDENTS

Jason Adams, Neurosciences Julia Adrian, Cognitive Science Vanessa Bateman, Visual Arts Melanie Beasley, Anthropology, '14 Matthew Boisvert, Neurosciences, '18 Emily Verla Bovino, Visual Arts, '18 Alison Caldwell, Neuroscience, '18 Ben Cipollini, Cognitive Science, '12 Elizabeth Clausing, Anthropology Sean Coffinger, Psychology Leela Davies, Biomedical Sciences, '13 Emily Davis, Linguistics Kyle Fischer, Neurosciences, '18 Whitney Friedman, Cognitive Science, '16

Anupam Garg, Neurosciences

Sara Goico, Anthropology, '18 Kiri Hagerman, Anthropology, '16 Kari Hanson, Anthropology, '14 Caroline Horton, Anthropology, '16 Javier How, Neurosciences Stephen Johnston, Neurosciences, '18 Jeremy Karnowski, Cognitive Science, '16 Stephan Kaufhold, Cognitive Science Megan Kirchgessner, Neurosciences Landon Klein, Neurosciences, '18 Emily Little, Psychology, '17 Hope Morgan, Linguistics, '13 Corinna Most, Anthropology, '16 Sascha Pohflepp, Visual Arts Catie Profaci, Neurosciences

Sequoyah Reynoso, Neurosciences, '17 Marley Rossa, Neurosciences Tim Sainburg, Psychology Andrew Schork, Cognitive Science, '16 Arturs Semenuks, Cognitive Science Nina Semushina, Linguistics Heidi Sharipov, Neurosciences, '14 Robert Thomas, Biomedical Sciences, '14 Camille Toarmino, Psychology, '17 Michael Vaill, Biomedical Sciences Katie Van Alstyne, Psychology Linnea Wilder, Anthropology Haleh Yazdi, Psychology Rachel Zarndt, Biomedical Science, '14 Matthew Zaslanski, Linguistics

## WHAT OUR GRADUATES ARE DOING NOW

Melanie Beasley, Assistant Professor, Purdue University

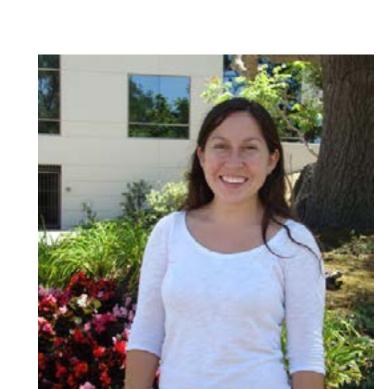

Sara Goico, PhD in progress, Anthropology, UC San Diego

**Stephen Johnston**, PhD in progress, Neurosciences, UC

Corinna Most, Adjunct Professor, Department of Ecology, Evolution, and

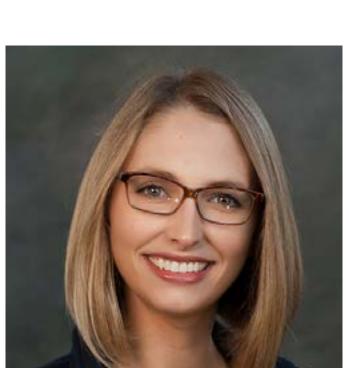

Heidi Sharipov, R&D Engineer at Dexcom

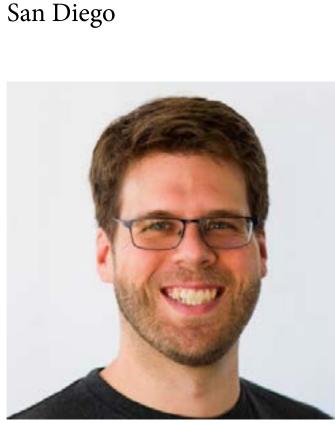

Matt Boisvert, Postdoctoral Scholar, Oregon Health Science Univesity

Leela Davies, Clinical fellow, Massachusetts General Hospital and Brigham and Women's Hospital, Boston

Kiri Hagerman, Production Editor, Annual Reviews, Inc.

Jeremy Karnowski, Vice President of Product, Insight

Data Science

Hope Morgan, Postdoctoral Scholar, University of Haifa,

Israel

Robert Thomas, third year resident, Internal Medicine at UC San Diego

Emily Verla Bovino, Art History Professor, Savannah College of Art and Design

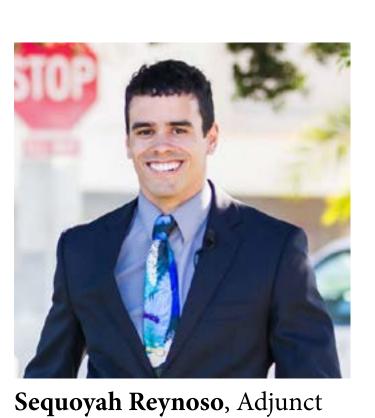

Scholar, Salk Institute

Kari Hanson, Postdoctoral Scholar, Institute for Neural Computation, UC San Diego

Landon Klein, California Council on Science and Technology Science Fellow

Professor of Biology, Carroll

Community College, MD

Data Science Fellow

Alison Caldwell, PhD in progress, Neurosciences, UC San Diego

Postdoctoral Scholar, National Center for Ecological Analysis and Synthesis (NCEAS)

Caroline Horton Lew, Postdoctoral Researcher and Adjunct Lecturer at the UC San Diego

Scholar, University of Texas, Director of nurturely.org

Andrew Schork, Research Leader, Institute for Biological Psychiatry, Mental Health Services, Denmark

Rachel Zarndt, Director, Office of Postdoctoral Affairs, University of Nevada, Reno

Help CARTA explore, explain, and share anthropogeny. Consider becoming a patron. carta.anthropogeny.org/support
